# LAPORAN QUIZ KELOMPOK 4

## Deskripsi Kasus

Anda diminta untuk membuat Aplikasi Web Manajemen Kost-Kostan yang membantu pemilik kost mengelola bisnis mereka. Aplikasi ini harus mampu mengelola data kamar, penyewa, kontrak sewa, dan pembayaran bulanan.

The screenshot shows the 'Kontrak' (Contract) section of the KOST APP. At the top, there is a navigation bar with links: Dashboard, Kamar, Penyewa, Kontrak (which is underlined), and Pembayaran. Below the navigation is a title 'Daftar Kontrak Sewa' and a blue button '+ Buat Kontrak Baru'. A table header with columns NO, PENYEWA, KAMAR, DURASI & HARGA, STATUS, and AKSI is shown. A message 'Belum ada data kontrak sewa.' is displayed in the center of the table area.

The screenshot shows the 'Penyewa' (Tenant) section of the KOST APP. At the top, there is a navigation bar with links: Dashboard, Kamar, Penyewa (which is underlined), Kontrak, and Pembayaran. Below the navigation is a title 'Daftar Penyewa' and a blue button '+ Tambah Penyewa'. A table header with columns NAMA LENGKAP, NOMOR HP, KTP (NIK), PEKERJAAN, and AKSI is shown. A message 'Belum ada data penyewa.' is displayed in the center of the table area.

Ini Adalah tampilan Web saya fitur tambah pada website saya masih belum bisa digunakan

The screenshot shows an Internal Server Error (500) page. At the top left is a red error icon and the text 'Internal Server Error'. At the top right is a 'Copy as Markdown' button. The main content area has a dark background with white text. It displays an 'InvalidArgumentException' error from the vendor/laravel/framework/src/Illuminate\View/FileViewFinder.php file at line 130. The error message states: 'View [penyewa.create] not found.'

Fungsi menambahkan yang eror

The screenshot shows a code editor interface with a dark theme. The left sidebar is titled 'EXPLORER' and lists several files and folders under the project 'KUISBEFOREUAS'. The 'web.php' file is currently selected and highlighted with a blue background. The main editor area displays the PHP code for the 'web.php' route file:

```
routes > web.php
1 <?php
2
3 use Illuminate\Support\Facades\Route;
4
5 use App\Http\Controllers\DashboardController;
6 use App\Http\Controllers\KamarController;
7 use App\Http\Controllers\PenyewaController;
8 use App\Http\Controllers\KontrakSewaController;
9 use App\Http\Controllers\PembayaranController;
10
11 Route::get('/', action: [DashboardController::class, 'index'])->name('dashboard');
12
13 Route::resource(name: 'kamar', controller: KamarController::class);
14 Route::resource(name: 'penyewa', controller: PenyewaController::class);
15 Route::resource(name: 'kontrak-sewa', controller: KontrakSewaController::class);
16 Route::resource(name: 'pembayaran', controller: PembayaranController::class);
```

The status bar at the bottom of the editor shows the following information: Jinza77 (3 days ago), Ln 4, Col 1, Spaces: 4, UTF-8, LF, PHP, Go Live, 8.2.
